Condition: Hot rolled, turned & polished, ultrasonically tested, magnetic particle inspection & spectro check. It is certified that the contents of this report is correct & accurate and that all tests and operations performed on this material was in compliance with applicable material specification & purchaser designated requirements. Any alteration to this report voids Vardhman Special Steels warranty. No weld repair has been performed on this material. The material is not radioactive and has not been exposed to radioactivity while under the control of Vardhman Special Steels. The material has not been exposed to mercury while under the control of Vardhman Special Steels. Unless other wise mentioned, this material was melted, continuous cast and rolled in India, with all testing performed by Vardhman Special Steels.

Condition: Hot rolled, turned & polished, ultrasonically tested, magnetic particle inspection & spectro check. It is certified that the contents of this report is correct & accurate and that all tests and operations performed on this material was in compliance with applicable material specification & purchaser designated requirements. Any alteration to this report voids Vardhman Special Steels warranty. No weld repair has been performed on this material. The material is not radioactive and has not been exposed to radioactivity while under the control of Vardhman Special Steels. The material has not been exposed to mercury while under the control of Vardhman Special Steels. Unless other wise mentioned, this material was melted, continuous cast and rolled in India, with all testing performed by Vardhman Special Steels.
